Daniel Vodenejev

Aspiring Junior Software Developer
Estonia

Summary

I have graduated from Tartu Vocational College with a specialization in junior software development, where I acquired skills in programming and software development. I am passionate about becoming a competent software developer. I am a motivated young software developer who has experience working in teams. I enjoy learning new technologies and all relevant references can be found in my additional information. For more information, please visit my portfolio at <https://daniilvodenejev.ikt.khk.ee/>, and you can also explore my final college project at <https://explorerstudio.kristaleks.ee>, with its corresponding GitHub repository available at https://github.com/ibra101408/booking_vue.
